Genuine Student Assessment: Student Statements & Counsellor Review

I am a Malawi national who was born in Malawi. I am aged 20 years and I currently reside in Malawi. I am keen to study in Australia a Bachelor Degree Level course in the field of Business titled Bachelor of Business at Edith Cowan University (ECU), located at Perth. The highest educational qualification I have achieved is Diploma of Business, which equates to Diploma study level. I completed this education 1 years, 3 months ago from Malawi. There have been no gaps in my education. My total work experience so far is Less than 1 year. My English language competencies are, very good, I come from an English speaking country and I have completed my prior education in English.

Situation in Home Country: Student Statements & Counsellor Review

I plan to study this course in Australia and not in Malawi my home country because, studying this course from Australia will increase my job prospects and salary expectations in Malawi. My ties with Malawi my home country are, not that strong now, as most of my family has migrated overseas and I too, would like to do the same. Post my course, I will work on getting an Australian Permanent Residency. My parents will not be able to fund my study in Australia. The current market value of my family's fixed assets Residential/Commercial/Agricultural in Malawi, would be currently valued between AUD 500,001 to AUD 750,000. My family's household income in the last calendar year was, more than AUD 150,000. My estimated Tuition fee and Living expenses is expected to be between AUD 40,001 to 55,000. The source of funding for my tuition fee and living expenses would, only be partly funded by my family and I would fund the remaining through earnings from my part-time work in Australia. In my home country Malawi there is no requirement of compulsory Military service in my home country. The political and civil situation in Malawi my home country, is good, and I feel safe living in my home country with my family.

Potential Situation in Australia & Value of the course: Student Statements & Counsellor Review

I have currently or previously applied to other educational institutions in Australia. The details of which are, Curtin University. The primary reason for wanting to study in Australia, is to develop world-class knowledge and skills to be successful in life . While I will study in Australia, I would largely stay by myself and I would visit my home country at least once a year . My previous ties with Australia, as a student do not exist, this is the first time I would be studying in Australia . I have chosen to study in Australia over other destinations because, Australia offers world-class courses which will help me improve my career prospects and salary expectations in Malawi. My decision to study at a detailed research of Australian educational institutions that has led me to choose this course at Edith Cowan University (ECU). The course I have selected will help me build skills which are in great demand in my home country. The duration of my course is more than 48 months . Post completing my course I plan to use the Post Study Work visa to stay and work in Australia for 2 years and then, return to my home country to explore opportunities.

Character Assessment & Declarations: Student Statements & Counsellor Review

Declaration: It is categorically stated that there are no circumstances which in any way are preventing me to return and stay in my home country due to a well-founded fear of being persecuted because of your race, religion, nationality, membership of a particular social group or political opinion. I have been acquitted of an offence on the grounds of unsoundness of mind or insanity. I have not been accused of unsoundness of mind or insanity. Therefore there was no reason to acquit me of an offence related to that accusation..
